Peter Sheedy peter@sheedy.com	Australian Institute of NDT (AINDT)	
Yaqing Zhu chsndt@public2.sta.net.cn	Chinese Society for NDT	

The Committee should be small enough to be manageable, yet big enough to function with only one third of members attending any meeting. The number 15 seems to be about right. Representation should be global, with members chosen as much for their willingness as their ability.

All those named have been selected for good English language ability, technical NDT knowledge, and experience in certification matters. None have been approached regarding this appointment, so may not be willing/available.

John Thompson
